Bridge Demolition Fill: **Cubic Yards**

SPECIAL INFORMATION AND INSTRUCTIONS

Requests were made after the October public hearing to modify the service road and access to the Kerenoff neighborhood. The alternative on new location that you recently reviewed impacts a large stream; therefore, we will be utilizing existing Skylark Road and a short new location area just north of Hicone Road (see U2525B_rdy_wkshp ALT1.pdf on Project Store). The electronic files are located on the Project Store at U2525B\PDEA\Mapping\CADD\U-2525 Kerenoff Service Road. Thanks!
